

# the official nuclear industry programme

Cohort 5's visit to CERN as part of their Footprints workshop on "International Nuclear Awareness"

## calling all engineers, scientists and commercial graduates

Join the **nucleargraduates** programme! Over two years with us you will:

- Complete three secondments across different organisations within the nuclear industry
- Receive 10 weeks of formal technical and behavioural training plus have access to your own individual training budget
- Dedicate 10% of your time to the Footprints corporate social responsibility programme
- Have a dedicated industry sponsor and join them as a direct entrant on completion of the **nucleargraduates** programme
- Be assigned a professional mentor to take you through to chartership
- Have the potential for an international secondment
- Join a professionally accredited and award winning scheme
